WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

This product has been formulated specifically for beef and is not intended for other species.

FEEDING DIRECTIONS:

Feed DJ Show Mix B30 at the rate of 4.0 to 20.0 pounds along with pasture and/or hay to provide not less than 60 milligrams nor more than 300 milligrams of Lasalocid per head per day when on pasture; the drug must be contained in at least 1 pound of feed. Over consumption may result in digestive disorders. Provide clean, fresh water at all times. Make free -choice plain white salt available at all times along with a clean, fresh source of drinking water.

WARNING: A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in calves to be processed for veal.

CAUTION: The safety of Lasalocid in unapproved species has not been established. Mix thoroughly with grain and/or roughage prior to feeding. Feeding undiluted, mixing errors and inadequate mixing may result in excess Lasalocid concentration which could be fatal to cattle and sheep. Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal.

INDICATIONS FOR USE: Intakes of Lasalocid in excess of 200 mg/head/day have not been shown to be more effective than 200 mg/head/day.

This feed does not contain urea, ruminant meat and bone meal, chicken litter, or restaurant grease.
